# Rephrase

**Réécrire un texte**

<https://quillbot.com/>

<https://www.rephrase.info/fr/outil-de-paraphrase>

The screenshot shows the Gigapixel AI website. On the left, there is a dark sidebar with the Gigapixel AI logo, social media icons, and a 'Read reviews' button. The main content area features a large image of a woman's face, split vertically to show the original image on the left and the AI-enhanced version on the right. The enhanced version is significantly sharper and more detailed. Text on the page reads: 'Exceptional AI image upscaler delivering enhanced detail and resolution by 600%.' Below this, it says: 'Use deep learning to get better photo quality by enhancing detail. Join the hundreds of thousands of photographers and designers who use Gigapixel AI for better printing, cropping, restoration, and more.' At the bottom, there are two buttons: 'Buy for \$99.99 \$79.99' and 'Try for free'. A small note below the first button says 'Save \$20 until June 3.'
